

SRP Faculty Participation Form

The **Student Research Program Course 99** (SRP-99) is a lower division contract course that is designed for entry-level undergraduate research experiences. This course is suitable for research experiences that require 3-10 hours of work per week during the regular academic year and for 10-16 hours of work per week during the accelerated 6-week and 8-week Summer Sessions. For research experiences that exceed this time commitment, students should enroll in an upper division independent research course (courses 196, 198, or 199). For more information on these courses, contact an Academic Counselor in your Department.

The Student Research Program (SRP) requires that all participating faculty have a completed Faculty Participation Form on file before students are able to generate course contracts. The fields marked with an asterisk are required.

If you are interested in recruiting undergraduates and advertising a research opportunity, we strongly encourage you to post your opportunity on the Undergraduate Research Portal on MyUCLA. If you need assistance, please contact the Undergraduate Research Center – Sciences at 310-794-4227 or urcsciences@college.ucla.edu.

Thank you in advance for your mentorship and for your participation in SRP.
